

Vishnu R

Full Stack Developer |
AI/ML Engineer

My Contact

✉ vishnuuragu@gmail.com

☎ +91 8220003407

Skills

Programming Languages:

- C++, Python, Java, JavaScript

Web & Backend:

- HTML, CSS, Node.js, Express.js

Databases:

- MySQL, MongoDB, Microsoft SQL Server

Tools & Technologies:

- Git, Adobe Photoshop, IIS, Apache Tomcat

Hardware & IoT:

- Raspberry Pi, NodeMCU, Arduino

Emerging Skills:

- AI/ML Systems, API Integrations, Cloud Deployment, Agent-based Applications

Projects

- AI Agent Platform (OpenClaw + LLM Integration)
 - Built an agent-based AI system capable of executing tasks using LLM APIs
 - Integrated multiple providers (OpenRouter, Gemini API, etc.)
 - Designed CLI-based workflow for managing agents and tasks
 - Implemented gateway service for handling requests and routing models
 - Deployed locally with Linux + systemd services + API endpoints
- Self-Hosted Developer Infrastructure (Tailscale + Cloudflare Tunnel)
 - Designed and deployed a secure self-hosted environment
 - Used Tailscale for private networking across devices
 - Exposed services securely using Cloudflare Tunnel + custom domain
 - Hosted internal tools, APIs, and web apps
 - Handled remote access, authentication, and service monitoring

About Me

Versatile and results-driven engineer with a strong foundation in full-stack development, backend systems, and emerging AI technologies. Experienced in building scalable web applications, deploying services, and working with modern developer tools and infrastructure.

Demonstrated ability to design, develop, and maintain robust systems with a focus on performance and usability. Expanding expertise into AI/ML systems, agent-based architectures, and cloud deployments.

Education Background

Maharishi International Residential School || Chennai

2019–2020

12th CBSE

Amrita Vishwa Vidyapeetham || Coimbatore

2020–2024

Btech CSE

Work Experience

Software Developer

Sanrove — 2024 – 2025

- Developed and maintained full-stack web applications with a focus on scalability and performance
- Built backend APIs using Node.js and Express, improving system efficiency and response time
- Worked on database design and optimization using MongoDB and MySQL
- Deployed and managed services on Linux-based environments
- Collaborated with cross-functional teams to deliver production-level features
- Gained hands-on experience with debugging, system monitoring, and production workflows
